Modern Machine Shop

6600 Clough Pike
Cincinnati, Ohio 45244-4090
513-231-8020

1989 ARTICLE INDEX

A subject listing of articles published in MODERN MACHINE SHOP during the past year.

BORING
Modular Boring System Provides Increased Flexibility.....Mar. 144

BROACHING
Steering Your Tools - Broaching.....Oct. 120

CAD/CAM
NC Verification: Taking A Closer Look.....Jan. 83
3D Milling From Any Source.....Jan. 148
Making The CAD to CMM Interface More Effective.....Feb. 156
CAD/CAM Converts Designs To Programs.....May 100
Small Tool Shop Justifies CAD/CAM Investment.....May 148
Machine Builder Finds Versatile CAD System Suited To Its Needs.....July 142
CIM Perspectives - Custom Versus Generalized Post Processors.....Aug. 122
Manufacturer Converts Entire Library Of Drawings To AutoCad.....Aug. 144
Special CAD/CAM Package Serves Moldmaker.....Sep. 134
PC-Based NC Programming System Handles Complex Surfaces.....Sep. 152
Good Programming And Right Tooling Speed CNC Output.....Oct. 136
From CAD To Gougeless Machining.....Oct. 162
CAM Shapes A Shop From The Start.....Nov. 82
Manufacturing Gets A Boost With CAD/CAM.....Nov. 130

CARBIDE TOOLING
Making Carbide Form Tools With EDM.....Jan. 66
One Grade Insert For Virtually All Steels And Cast Irons.....May 168
Solid Carbide Boring Bar Holds "Tenths" - Reduces Two Operations To One.....June 130

CERAMIC, CERMET & DIAMOND TOOLING
Steering Your Tools - Cermet Inserts.....Jan. 110
Cermets Solve Problems For Valve Manufacturer.....June 136
Cermets Tackle Tough Jobs.....Aug. 66
Tomorrow's Cutting Tools: Building On The Present.....Aug. 76
Steering Your Tools - Ceramic Cutting Tools Reduce Manufacturing Cost.....Aug. 120

CIM TECHNOLOGIES
CIM Perspectives - Touch Probe.....Jan. 106
CIM Perspectives - Fiber Optics In The Shop.....Feb. 114
CIM Perspectives - CNC Data Interfaces.....Mar. 116
CIM Perspectives - Digitizing.....Apr. 118
An Off-The-Shelf Approach To CIM.....May 54
CIM Perspectives - Application Layer Of MAP.....May 134
Data Collection System Is The Answer.....May 154
Computer-Integrated Route Produces Large Aircraft Models.....May 156
CIM Perspectives - BCL Update.....June 120

CIM TECHNOLOGIES
CIM Perspectives - Touch Probe.....Jan. 106
CIM Perspectives - Fiber Optics In The Shop.....Feb. 114
CIM Perspectives - CNC Data Interfaces.....Mar. 116
CIM Perspectives - Digitizing.....Apr. 118
An Off-The-Shelf Approach To CIM.....May 54
CIM Perspectives - Application Layer Of MAP.....May 134
Data Collection System Is The Answer.....May 154
Computer-Integrated Route Produces Large Aircraft Models.....May 156
CIM Perspectives - BCL Update.....June 120

CIM TECHNOLOGIES (cont.)
Bringing Together The Plant's Computer Functions.....June 154
Marching Into CIM Step-By-Step.....July 66
CIM Perspectives - Why Don't We Have Part Program Compatibility?.....July 122
DNC Is A Factory Floor Network.....Aug. 154
CIM Perspectives - Touch Screen CRTs.....Sep. 120
CIM Perspectives - Reorganization of MAP/TOP.....Oct. 122
CIM Perspectives - Kermit Protocol In Manufacturing.....Nov. 116
CIM Perspectives - Surface Mount Technology.....Dec. 132

CLAMPING & HOLDING (see *Jigs & Fixtures*)
Hoffman On Tooling - Basics Of Clamping, Part II.....Jan. 102
Hoffman On Tooling - Basics Of Clamping, Part III.....Feb. 108
Clamping System Cuts Setup Time.....Feb. 152
Hoffman On Tooling - Basics Of Clamping, Part IV.....Mar. 110
Hoffman On Tooling - Strap Clamps.....June 112
Cam And Screw Clamping Combined In Simple System.....June 158
Hoffman On Tooling - Strap Clamp, Part II.....July 114
Hoffman On Tooling - Screw Clamps.....Aug. 114
Hoffman On Tooling - Wedge Clamps.....Sep. 112
Pallet Changer Cuts Setup Time By 50 Percent.....Sep. 144
Hoffman On Tooling - Cam Clamps.....Oct. 114
Grab The Quick CNC Lathe Changeover.....Nov. 76
Hoffman On Tooling - Toggle Clamps.....Nov. 106
Vise Design Reflects Trend To Flexible Fixturing.....Nov. 142
Designing Cost-Effective Workholders.....Dec. 86

CUTTING FLUIDS
Eliminating Liquid Disposal.....June 140
Coolant Management Program Improves Production, Cuts Costs.....July 136
Modular Hose System Has Many Uses.....July 156
Industrial Cooler Improves Quality At Grinding Plant.....Aug. 136

DRAWING, BENDING & FORMING (See *Pressworking*)
Rotary Bending Makes Precision Bends With Less Tonnage.....Apr. 148

DRILLING
Steering Your Tools - Gun Drills.....May 132
Deep Hole Drilling With Lasers.....June 53
Choose The Best Drill Point Geometry.....June 66
Multiple-Spindle Drill Heads Come To FMS And Cells.....June 94
Low-Cost Drilling And Tapping Efficiency For Small Parts.....July 166
Deep-Hole Drilling Method Brings Early Return On Investment.....Sep. 130

ELECTRICAL DISCHARGE MACHINING
Contract Shop Expands EDM's Role.....Apr. 52
Better Wire: Lowers EDM Costs.....Apr. 66
EDM Impacts Tool And Die Make.....Apr. 142
From Fringe To Frontier.....Aug. 90
CNC Wire EDM Helps U.S. Job Shop Win Job From Singapore.....Aug. 132

ELECTROCHEMICAL MACHINING
Artillery Shell "Spirals Like A Football" Due To ECM.....Jan. 134

EQUIPMENT DESIGN
JIMTOF: FMSs On Hold - Cells And Supporting Developments Moving Fast.....Feb. 84
Shop Floor Input Improves Machine Tool Design.....Feb. 146
Japan: Elegant Simplicity.....Mar. 84
DRO Equipped Engine Lathes Provide 30 Percent Throughput Increase.....Mar. 128
Flexible Conduit Offers Easy Assembly.....Mar. 142
Vision Readout Boosts Quality And Orders.....Apr. 130
Wedge Form Thread Eliminates Turbocharger Vibration.....Apr. 134
World Machine Tool Review: Spain.....July 98
Contract Shop Opts For Rebuild Of Classic American Machine Tools.....July 148
Remanufactured Machine Performs "Like New".....July 154
World Machine Tool Review: Taiwan In Transition.....Aug. 98
World Machine Tool Review: The Soviet Union, Time of Change And Challenge.....Sep. 97
Machine Tool Builder Decreases Setup Time And Fixturing Costs With DROs.....Sep. 140
Composite Frame Machining Center Claims Higher Performance.....Oct. 158
EMO-89: Tackling The Real Door-To-Door Issues.....Dec. 108

FINISHING
Superfinishing Gains With CNC Assist.....May 108

FLEXIBLE & CELLULAR MANUFACTURING
A New Game Plan For Tool Control.....Jan. 52

GAGING (See *Inspection*)
Microprocessor Brings New Benefits To Dedicated Gaging Systems.....Oct. 144

GEAR CUTTING
Bevel Gear Machine Requires No Mechanical Adjustments.....Feb. 142
CNC Grinder, New Abrasive Cuts Gear Grinding Time.....Dec. 144

GRINDING, HONING, LAPPING
High Production Demands Achieved With Thru-Feed Grinding.....Jan. 124
Large Roll Grinder Retrofitted With Automatic Control.....Jan. 130
High-Speed Electric Spindles Update Older Grinders.....Feb. 138
Industrial Cooler Improves Quality At Grinding Plant.....Aug. 136
Tool Sharpener Renews Cutting Edges.....Aug. 152
Jig Grinding Goes Modern.....Dec. 54
How To Take Advantage Of Double-Disc Grinding.....Dec. 66
"Fine Tuning" Belt Grinding Can Improve Productivity.....Dec. 76
CNC Grinder, New Abrasive Cuts Gear Grinding Time.....Dec. 144
Automatic Tool And Cutter Grinder Improves Cutter Finish.....Dec. 148
CNC Grinder Gives 3-To-1 Time Savings in Machining Multi-Diameter Parts.....Dec. 152
CNC Cylindrical Grinder Cuts Costs And Cycle Time.....Dec. 156

INSPECTION & QUALITY CONTROL
CIM Perspectives - Touch Probe.....Jan. 106
Managing The Shop With SPC.....Feb. 50
The CMM Is A Shop Floor Tool.....Feb. 62
A New Measure Of Opportunity.....Feb. 74
Zeiss Enters The Market For Moderately Priced CMMs.....Feb. 150
Making The CAD To CMM Interface More Effective.....Feb. 156
World Review - Swiss Highlight SPC.....Mar. 124
Pocket-Size Electronic Surface Indicator For Shop Use.....Apr. 152
SPC Will Work If:.....May 68
Statistical Process Control Cuts Rejects And Reduces Inventories.....May 162

INSPECTION & QUALITY CONTROL (cont.)
Horizontal Arm CMM Reflects Factory Floor Requirements.....June 150
CMM Brings New Levels Of Precision To Machine Facility.....Aug. 140
Steering Your Tools - Automatic Measuring On A CNC Lathe.....Dec. 130

JIGS & FIXTURES (see *Clamping & Holding*)
Hoffman On Tooling - Specifying Tolerances, Part I.....Apr. 108
Hoffman On Tooling - Specifying Tolerances, Part II.....May 124
Reducing Setup And Handling: The Big Challenge.....May 172
Fixturing System Cuts Machine Downtime.....Oct. 166
Designing Cost Effective Workholders.....Nov. 66
Modular Tooling System.....Nov. 136
Off-Line Setup With Positive Location On Four Sides.....Nov. 140
Hoffman On Tooling - Design Economy, Part I.....Dec. 126

LASERS
Today's Laser Cutting - Fast And Clean.....Apr. 88
Deep Hole Drilling With Lasers.....June 53

MANAGEMENT
Contract Shop Ideas - Educating Buyers, Part IV.....Jan. 98
Manager's Workshop - You Get What You Reward And Deserve.....Jan. 112
Contract Shop Ideas - Large Contracts And How Not To Become a Captive Shop....Feb. 104
Manager's Workshop - Goal Setting: The Heart Of Getting The Job Done.....Feb. 118
Contract Shop Ideas - Creativity In The Contract Shop.....Mar. 106
Manager's Workshop - Delegating Does Not Mean Dumping.....Mar. 120
Contract Shop Ideas - Market Oriented Shops.....Apr. 106
Manager's Workshop - Training And Development: Managing For Performance.....Apr. 122
Overcoming Computer Phobia.....May 94
Contract Shop Ideas - Market Oriented Shops, Part II.....May 120
Manager's Workshop.....May 138
Contract Shop Ideas - Market Oriented Shops, Part III.....June 108
Manager's Workshop - Counseling Problem Employees.....June 124
How To Justify That First NC Machine.....July 90
Contract Shop Ideas - Bringing Computers Into The Small Shop, Part I.....July 110
Manager's Workshop - Dealing With Difficult People.....July 128
Contract Shop Ideas - Bringing Computers Into The Small Shop, Part II.....Aug. 110
Manager's Workshop - Contending With Hostile-Aggressive People.....Aug. 126
Manager's Workshop - Contending With The Chronic Complainer.....Sep. 124
Manager's Workshop - Contending With "Yes" And "No" People.....Oct. 126
Manager's Workshop - Contending With Know-It-Alls.....Nov. 120
Manager's Workshop - Contenting With Indecisives.....Dec. 138

MATERIAL HANDLING
Indexing Conveyor Loads Shafts For Automatic Machining.....Nov. 128

MATERIALS
Machining Composites - New Rules And Tools.....Apr. 74
PM Tool Steels Keep The Edge.....Aug. 56
Lessons From A Steel Mill.....Sep. 86

MILLING, MACHINING CENTERS
World Review - Europeans Use More Verticals—Myth Or Fact?.....Jan. 116
End Mill Aids Pocketing Of Aluminum.....Jan. 150
NC Mill Is Featured In Factory Integration.....Jan. 152

MILLING, MACHINING CENTERS (cont.)
Making Holes In Convoluted Manifold Tubes....Feb. 132
Shop Floor Input Improves Machine Tool Design....Feb. 146
Rotary Transfer Machine Fills Production Niche....Apr. 138
Low-Cost Drilling And Tapping Efficiency For Small Parts....July 166
Doing It All In One....Sep. 50
Steering Your Tools - Millturning....Sep. 118
Pallet Changer Cuts Setup Time By 50 Percent....Sep. 144
Tracing In A Digital Age....Oct. 54
High-Speed Machining: Where It's Headed....Oct. 66
Balanced Toolholding For High-Speed Machining....Oct. 80
A Philosophy For Purchasing A CNC Milling Machine....Oct. 132
Positive-Angle Endmill Slices Down Toolmaker's Cycle Times....Oct. 142
CNC Tapping Center Suits Small-Parts Needs....Oct. 154
Composite Frame Machining Center Claims Higher Performance....Oct. 158
Responsive Five-Axis Machining....Oct. 170

NC MACHINES & CONTROLS
Large Roll Grinder Retrofitted With Automatic Control....Jan. 130
CNCs In The Fast Lane....July 52
How To Justify That First NC Machine....July 90
32-Bit Control Technology Enhances Turning Productivity....Aug. 148

NONCONVENTIONAL MACHINING
StereoLithography: Fast Model Making....Oct. 100

PLANT MANAGEMENT
Keeping Your Precision-Machining Contract Shop Competitive....Feb. 98
Japan: Elegant Simplicity....Mar. 84
Flexibility And Quality Help Build Job Shop....June 146
Cracking The Future Barrier....Sep. 70

PRESSWORKING (See *Tool & Die* and *Drawing, Bending & Forming*)
Cost Effective Production Of Small Quantity Stampings....Jan. 138
Fineblanking In Fine Style....Mar. 52
A New Force In Stamping Process Control....Mar. 66
Shave Blanks In A Progressive Die....Mar. 79
There Is A Right Stripper, Guide And Lifter....Apr. 99

ROBOTICS
Robots: Setting The Record Straight....Nov. 52

SAWING
Band Saw Eliminates Secondary Operation....Jan. 120

SCREW & AUTOMATIC MACHINING
Making Carbide Form Tools With EDM....Jan. 66
Pull-Through Bar Retainer Takes Seconds Out Of Cycle....Sep. 148
Indexing Conveyor Loads Shafts For Automatic Machining....Nov. 128

SHEET CUTTING & PUNCHING
Cost Effective Production Of Small Quantity Stampings....Jan. 138
Comprehensive Flexible Fabrication System....Mar. 138

SYSTEMS & SOFTWARE
NC Verification: Taking A Closer Look.....Jan. 81
Systems & Software.....Jan. 156
Systems & Software.....Feb. 160
Systems & Software.....Mar. 148
Systems & Software.....Apr. 154
An Off-The-Shelf Approach To CIM.....May 54
SPC Will Work If:.....May 68
Statistical Process Control Cuts Rejects And Reduces Inventories.....May 162
Systems & Software.....May 176
Systems & Software.....June 160
Computer-Aided Cost Estimating For Tool And Die Shops.....July 160
Software Helps Complete Government Forms.....July 164
Systems & Software.....July 168
Systems & Software.....Aug. 156
Systems & Software.....Sep. 156
How Do You Get There From Here?.....Oct. 88
Systems & Software.....Oct. 174
Where's The Business?.....Nov. 92
Software Helps Company Gain Shop Floor Control.....Nov. 134
Systems & Software.....Nov. 144
Developing The Process Plan.....Dec. 98
Systems & Software.....Dec. 130

TAPPING & THREADING
Use Percentage And Helix When Threading.....June 80
CNC Tapping Center Suits Small Parts Needs.....Oct. 154

TOOL & DIE DESIGN/CONTROL
Shave Blanks In A Progressive Die.....Mar. 79
There Is A Right Stripper, Guide And Lifter.....Apr. 99

TOOLING, GENERAL (See *Carbide* and *Ceramic, Composite & Diamond*)
A New Game Plan For Tool Control.....Jan. 52
Boron Carbide Tool Coatings Make Their Entry.....Jan. 76
Tool Management Through Coordinated Cutting Materials.....Jan. 144
End Mill Aids Pocketing Of Aluminum.....Jan. 150
Steering Your Tools - Economics Of Turning, Part I.....Feb. 112
Making Holes In Convoluted Manifold Tubes.....Feb. 132
"JIT" Delivery Of Cutting Tools Maximizes Efficiency.....Mar. 134
Modular Boring System Provides Increased Flexibility.....Mar. 144
Machining Composites - New Rules And Tools.....Apr. 74
Steering Your Tools - Cubic Boron Nitride To Turn Heat Treated Steel.....Apr. 116
One Grade Insert For Virtually All Steels And Cast Irons.....May 168
Steering Your Tools - Skiving: A Forgotten Art.....July 120
Tomorrow's Cutting Tools: Building On The Present.....Aug. 76
Tool Sharpener Renews Cutting Edges.....Aug. 152
Balanced Toolholding For High-Speed Machining.....Oct. 80
Positive-Angle Endmill Slices Down Toolmaker's Cycle Times.....Oct. 142
Steering Your Tools - Kolesov Tool Geometry.....Nov. 114

TRACING
Tracing In A Digital Age.....Oct. 54
Job Shop Applies Do-It-Yourself Tracer Mill Kit.....Nov. 132

TRAINING

How To Develop CNC In-Plant Training.....July 80
Retraining Program For CNC Machinists Reduces Scrap And Rework By 87%.....Oct. 150

TURNING

Steering Your Tools - Economics Of Turning, Part I.....Feb. 112
Automated Turning Cell Provides Speed And Precision.....Feb. 126
Steering Your Tools - Economics Of Turning, Part II.....Mar. 112
DRO Equipped Engine Lathes Provide 30 Percent Throughput Increase.....Mar. 128
Steering Your Tools - Cubic Boron Nitride To Turn Heat Treated Steel.....Apr. 116
Vision Readout Boosts Quality And Orders.....Apr. 130
Steering Your Tools - Chucking Rotating Parts.....June 118
Solid Carbide Boring Bar Holds "Tenths" - Reduces Two Operations To One.....June 130
Doing It All In One.....Sep. 50
Four Good Reasons For Four-Axis Turning.....Sep. 62
Steering Your Tools - Millturning.....Sep. 118
Pull-Through Bar Retainer Takes Seconds Out Of Cycle.....Sep. 148
Grab The Quick CNC Lathe Changeover.....Nov. 76
Steering Your Tools - Automatic Measuring On A CNC Lathe.....Dec. 130
